

## GrouNZ Flex® Screw

### The Versatile Screw for Most Applications

Flexibility is its advantage: mix and match with the adapter best suited to the project. Equipped with the bearer U or L adapter makes it just right for beams. Use it with a post adapter for fences or high decks. Fit it with the flange adapter when a larger fixing surface area is needed. Or connect a custom adapter to the central hole.

GrouNZ Flex	900	1500
Length (mm)	900 mm	1500 mm
Shaft Diameter (mm)	76 mm	76 mm
Shaft Thickness (mm)	4 mm	4 mm
Central Hole Thread	M20	M20
Helix Height (mm)	600 mm	1000 mm
Compression Capacity* (kN)	15 kN	35 kN
Tensile Capacity* (kN)	8 kN	23 kN
Lateral Capacity* (kN)	4 kN	10 kN

\* depends on ground condition

Steel	ISO 630 FE 360D
Galvanisation	ISO 1461
Manufacturing	ISO 9001
