

GrouNZ Pipe® Screw

The Screw Ideal for Poles and Tubes

The GrouNZ Pipe screw is hollow and can hold a rigid or metal tube inserted inside. Side bolts maintain the tube securely. That makes it very useful to hold road signs, lamp posts, gates and fences, flag poles, green house poles, mail boxes...Imagination is the limit. Strong and durable, it can stay permanently in the ground. Simple and fast to install and remove, it also suits temporary projects.

GrouNZ Pipe	900	1500
Length (mm)	900 mm	1500 mm
Shaft Diameter (mm)	76 mm	76 mm
Shaft Thickness (mm)	3 mm	3 mm
Fixing Holes Thread	M12 x 3	M12 x 3
Helix Height (mm)	600 mm	1000 mm
Compression Capacity* (kN)	15 kN	35 kN
Tensile Capacity* (kN)	8 kN	23 kN
Lateral Capacity* (kN)	4 kN	10 kN

* depends on ground condition

Steel	ISO 630 FE 360D
Galvanisation	ISO 1461
Manufacturing	ISO 9001
